I am but Sam Coleman wants to have an UAO as an option if negotiations don't pan out.

are we talking a UAO for removal ? I thought the PRPs were interested in an AOC.
weren't you working on an AOC?

RSD Briefing on Gulfo UAO

02:57 PM

Barbara,

Earlier this morning, I briefed RSD management on the Gulfo UAO issue. RSD management believes that an ISE could be justified at Gulfo and that the lack of an ISE should not be used as the basis for not issuing the UAO. Given the historical recalcitrance of these PRPs, and in an effort to expedite tank removal/cap repair at the site, RSD would be willing to seek \$150K-\$175K in Fund monies from OSWER for this work should the PRPs not comply with the UAO (given the possible DC implications, we're very confident that OSWER would concur with any strong recommendation of ours to release such Funds). We can cross this bridge when we come to it, but we likely ought to discuss whether a referral to DOJ for UAO-enforcement is warranted before obligating the Fund monies.

We are in the process of scheduling a meeting to brief OSRE management on this issue. I will keep you posted in that regard.

Best,
Greg
